

## X2 FABRICS&LEATHER

### **Description:**

X2 is a fast and effective multipurpose cleaner when there is a need to vigorously clean leather and fabrics on vehicles without dehydrating them. Its unique formula recreates a lipid layer of vegetable origin similar to that of leather, to give the driver a delicate feeling in contact with the seat where the product has been applied. X2 has a strong anti-odour and hydrating effect to prevent the formation of unpleasant odours and preserve the original finish of leather and fabrics.

### **Directions for use:**

**Unscheduled cleaning:** remove dust and dirt. Evenly apply the product directly on the surface, use a paint-brush with soft bristles until foamy and if necessary help yourself with a brush to remove stubborn dirt. Wipe a soft damp microfibre cloth to remove the product.

**Routine cleaning:** dilute the product 1:1 by spraying directly onto the surface and then wiping with a microfibre cloth, first a damp one and then a dry one. To protect treated surfaces, keeping them waterproof and elastic and reducing the risk of cracks, use the specific product, SC2 Dressing for leather and/or SC4 tex coat.

### **Consumption:**

100 ml/car.

### **Technical Features:**

Appearance and colour: orange liquid

Odour: characteristic

pH: 9,5 ± 0,5

Flash point: >100°C

Relative density: 1,01 g/cm<sup>3</sup>

Solubility in water: soluble

Solubility in oil: not soluble

### **Storage:**

Unopened and stored at room temperature away from direct sunlight.

### **Packaging:**
